

PRECISION & TRUST

# V PROTEK SYSTEMS

ACCURATE. RELIABLE. COMPREHENSIVE

# Who We Are

**Vprotek Systems** has become one of the most trusted providers of weighing scales, laboratory balances, jewelry balances, industrial and commercial scales, health scales, moisture analysers, currency-counting machines and a full spectrum of laboratory instruments in India.

Our success lies in offering high quality items at competitive pricing with efficient after-sales support. **Over 10,000 satisfied customers**—including government & semi-government organisations, public sector units, major jewellery houses, public/private banks, renowned industries, supermarkets, hotels & restaurants, and small to medium-sized retail counters—across the country.

## Why our clients choose us:

- Unmatched accuracy and precision in measurements
- Use of cutting-edge technology for long-term performance
- Customisable solutions tailored to operational requirements
- Robust and durable designs built for demanding environments
- Comprehensive support from installation through maintenance

# Our Service & Support Team

At **Vprotek Systems**, we believe that purchasing a system is only the beginning of the relationship. Our dedicated service team ensures your equipment continues to perform optimally throughout its lifecycle.

## Services include:

- On-site installation and commissioning
- Calibration, verification & tuning of weighing instruments
- Preventive maintenance programmes
- Breakdown service & spare parts support
- Upgrades and retrofits to meet evolving standards
- Training of your operational staff and user support

With a fully equipped team versed in all types of related services, we ensure minimal downtime and maximum productivity for your operations.

# Product Category:

## Weighing Solutions

Explore our core range of weighing equipment designed for precision, reliability and ease-of-use.

- **Field scales** (e.g., 300 kg capacity)
- **Bench scales** – all stainless steel models for industrial usage
- **Pocket/personal scales** for portable measurement tasks
- **Jewelry balances** – ultra-precise balances tailored for jewellery houses
- **Laboratory balances & moisture analysers** – for R&D, QC labs, pharmaceutical, food-labs

Each product is configurable for capacity, accuracy class, interface (digital/analogue), and environmental factors (humidity, temperature, dust) ensuring the right solution for your application.

# Billing & Point-of-Sale Solutions

Streamline your billing, checkout, inventory and customer interaction processes with our comprehensive POS equipment.

## Included solutions:

- **HANDY BILLING MACHINES** (portable, compact) VProtek Systems
- **TOUCH POS TERMINALS** — user friendly touchscreen interface for retail & hospitality.
- **THERMAL PRINTERS** — fast, reliable printing for sales receipts, invoices, labels.

These tools help reduce transaction time, improve accuracy and integrate seamlessly with your back-office systems.

# Packaging & Sealing Solutions

Ensure your products are securely packaged, sealed and ready for shipment or sale with our packaging equipment.

## Products listed:

- **Hand sealing machines** for small-batch sealing applications
- **Pedal sealers** – foot-operated sealers for efficient workflow
- **Induction sealers** – non-contact sealing for leak-proof packaging
- **Band sealers** – continuous band sealing for bags or pouches

Ideal for FMCG, food-packaging units, pharmaceutical packaging, and anywhere reliable sealing is vital.

# Currency Counting & Handling Machines

For banking, retail, cash-handling operations where accuracy, speed and security are key, our currency machines deliver.

## Key features include:

- High-speed counting and batch functions
- Fake-note detection & UV/IR sensors
- Mixed-denomination sorting options
- Robust build for 24/7 cash-office use Backed by our service team for maintenance, calibration and upgrades.

# Industries & Applications
